## 10.0kVA Three Phase Subaru RGV Generator

Fully imported from Japan

This superior 10.0kVA three phase generator offers Subaru's V-Twin engine's renowned performance and reliability. The V-Twin delivers magical high power with smooth, reliable torque, improved breathing at high rpm, and low fuel consumption, compared to conventional side-valve engines.

The RGV range of SUBARU generators, coupled with their V-Twin engines offer a host of benefits. The RGV has outstanding durability reinforced and rugged structure with a strong frame construction. The large safety muffler achieves a markedly lower noise level equal to that of 5kw class. A large battery tray can carry a battery up to 260 x 170 x 205 mm (case size)

The RGV's reliability and low maintenance is ensured with the combination of high-performance Subaru OHV V-twin engine and weather-proof (IP23 level) alternator and a 3 Year Subaru engine warranty. Its easy operation electric start key-switch and starting motor located on the front control panel, an extra large long range 44L fuel tank ensures plenty of fuel for a day's work.

The RGV's Safety design features oil sensor and fuel shut-off solenoid valve and a fuseless circuit breaker.

Model Number	RGV13100T
kVA	10kva
Phase	Three
Fuel Type	Petrol
Starting System	E/Start & R/Start
Watts (w )	10,000w
Rated Output (w )	8000w
Rated Power Factor	0.8
Alternator Type	Brush type, self exciting, 2 poles
Voltage (V)	415 / 240v - 50hz
Voltage Regulation	Current trans type
Over Load Protector	Fuseless circuit breaker
Engine Make	Subaru
Engine Type	18.0hp EH63D
Engine Features	Air cooled, 4 stroke, V-Tw in OHV petrol
Fuel Tank (L)	44.0L
Running Time (Rated Output)	10.8hr
Noise Level (dB @ 7m)	75db
Weight (kg)	151kg
Dimensions (LxWxH)	826x611x771mm
Package (LxWxH)	830 x 770 x 860
Manufacturers Warranty	2 years
Engine Warranty	3 years
