## 8.5hp Crommelins Twin Impeller Diesel FF Pump

Diesel powered

This is a Diesel variant of the Twin Impellor Fire Fighter Pump provides water similar to their single impeller cousins, but at a far greater pressure and is commonly seen on minesites and where ever diesel is the preferred fuel.

It is used extensively on boom sprays, wash down points and where ever higher pressure water is required. This model is popular due to its reliability, durability and versatility and is also ideal for firefighting, water transfer, washing down farm machinery and many other jobs that require water.

This model will give you top performance when you need it!

The Pump is cast aluminium alloy that comes with a 40mm (1 1/2") inlet and three way outlet - Consisting of 1x 40mm (1 1/2") outlet and 2 x 25mm (1") outlets). There is also 2" Inlet and Outlets available upon request.

### Features

- The cast aluminium impeller/s gives improved life
- Self-priming after initial prime
- Bolt on replaceable suction port so enabling easy and quick replacement if inlet cracked or thread is damaged
- Cast iron diffuser increases pump life and greatly reduces maintenance

### Applications

- Fire fighting
- Water transfer
- Washing down farm machinery
- Boom Sprays
